FINE ART PRINTING

PAPER OPTIONS

Our paper selection has been divided into groups
due to their individual features and qualities.
This will reflect in prices to follow on pg 6-8

GROUP A / GROUP B / GROUP C / GROUP D

GROUP A

Kodak Premium Lustre Paper (250gsm)

A general-purpose lustre surface, similar to the photographic 'E' surface paper.
This is a basic standard for commercial prints and posters.

Please note this paper is not archival

GROUP B

Ilford Galerie Smooth Pearl (310gsm)

A smooth paper with a superb pearl like surface.
Consistent with the look and feel of a real photograph.

Ilford Fine Art Smooth Pearl (270gsm)

A matte paper stock. Excellent paper if you like the quality and features of our *Group C* papers but with a more affordable price point.

Ilford Fine Art Smooth (200gsm)

A smooth matte 100% cotton rag paper.
Excellent paper if you like the quality and features of our *Group D* papers but with a more affordable price point.

FINE ART PRINTING

GROUP C
<p>Ilford Gold Fibre Gloss (310gsm)</p> <p>A beautiful 100% cotton paper similar to the old fibre based darkroom papers. It has gentle warm tone and sheen.</p>
<p>Ilford Gold Fibre Pearl (290gsm)</p> <p>Gold Fibre Pearl features a true baryta (barium sulphate) coating with less sheen to the Gold Fibre Gloss.</p>
<p>Canson Baryta (310gsm)</p> <p>Museum grade baryta photo paper has the same barium sulphate coating as traditional silver halide paper but with a premium inkjet colour receiver layer.</p>
<p>Canson Platine Fibre Rag (310gsm)</p> <p>Setting the benchmark for Digital Darkroom papers, Platine Fibre Rag provides the aesthetic and feel of the original F-Type Baryta Fibre paper, excellent for grey tones, B&W work and colour.</p> <p><i>A longstanding favourite of ours at Prism!</i></p>
<p>Ilford Metallic Gloss (260gsm)</p> <p>This stunning paper has an iridium finish giving every image a three-dimensional look and feel. Although the media adds an additional creative angle to portrait and studio photography, it also lends itself perfectly to enhancing mechanical, industrial or architectural images.</p>

FINE ART PRINTING

GROUP D

Ilford Smooth Rag (310gsm)

A super smooth matte 100% cotton rag paper with no optical brighteners.
Excellent for bold illustration works. It has a natural bright white hue.

Canson Photographique Rag (310gsm)

This paper type offers an exceptional smooth white tone, achieved by introducing natural minerals during the manufacturing process.
It offers a unique extra smooth surface with a sensual feel.

Hahnemuhle German Etching Paper (310gsm)

This mould-made heavy weight paper features a distinct textured surface. Perfect for images that have texture in the subject matter, illustrations and artworks.

Canson BFK Rives white (310gsm)

A beautiful textured rag paper, less textured compared to the German Etching.
It has a unique pure white tone obtained without the use of optical brighteners.

Ilford Galerie Cotton Artist Textured (310gsm)

Cotton Artist Textured is a mould – made 100% Cotton rag paper. The coarse structured surface allows for a beautiful traditional watercolour look and feel, whilst still reproducing pin-sharp details and colour consistency.

Ilford Cotton Medina (320gsm)

A NEW addition to Ilford's range.
Similar to the German etching, with an even heavier inconsistent styled texture

FINE ART PRINTING

FINE ART PRINTING

DECKLED EDGE PRINTS

The technique applied to make a deckled edge creates a vintage feel to your print that is perfect for everything from wedding photos to artworks. We print your images onto fine art paper before carefully applying the deckled edging for a distinct, handcrafted finish.

For image size 4 x 6 inch up to 6 x 9 inch, please apply an additional 1cm white border to your file. For image size 8 x 10 inch up to 16 x 24 inch please apply an additional 1.5 cm white border to your file. File setup fee will apply for any unsized images.

Available with GROUP D PAPERS ONLY

CUSTOM FRAMING

To ensure longevity and premium presentation, we offer archival custom framing.

At Prism Imaging we pride ourselves on quality so you know you will be getting the perfect end result but with affordable pricing. We stock a range of popular shades and mouldings, mounts and specialty glass options to suit your needs.

If you are an artist or photographer who is looking to get your files printed and framed for your exhibition, we specialise in this service helping you through each step, from paper selection to framing options best suited to your work.

No order is too large or small. Feel free to pop in store to view our range and discuss options for an on-the-spot custom quote. Alternatively, if you already have a frame you would like a print mounted into, we can fit this for you at an additional fee of \$40.00.

HOW TO ORDER:

- > Please download our framing brochure from our website
- > Choose your preferred moulding
- > Upload your file via our website and mention in the memo the code of your chosen moulding
- > Tell us your Fine Art Paper choice
- > Let us know if you would like a matt around your image or just edge to edge print and frame
- > We'll take it from here!

Payment upon pickup.

Allow 15 working days for completion

Post/ freight available

READY MADE FRAMES

AVAILABLE IN STORE

We have a collection of frames instore already made in the standard 'A' series for quick turnaround with the same quality of our Custom Framing.

There are five different options for you to choose from:

Frame only
(Choose from black, white or Raw oak)

Frame and fit
(We frame and close up an already existing print)

Frame/print/and fit
(We frame and print from three different print paper stocks and finish your frame ready to hang.)

Mounts are available on request.

Allow 5-7 working days for completion

Trade discount available for ABN holders

CANVAS

READY TO HANG

Canvas is a classic product and an alternative to framing. Our canvas prints are expertly finished and hand-crafted. They are printed using genuine Epson Ultrachrome inks, finished with UV spray protection, stretched and wired ready to hang. Our staff can assist and create any size to suit your needs.

PLEASE NOTE:

To enable your image to wrap around the sides, add 5 cm to each side of your image.
Ex. For a 40cm x 30cm canvas, supply image 50cm x 40cm.

DEEP FRAMED CANVAS

Our Deep Framed Canvas (also known as a float frame) is a modern interpretation of the classic canvas. It is a high-end fine art product that gives depth to your image. Your photo is printed onto Canson ProCanvas with pigment inks before being UV spray protected, stretched, and set into your choice of moulding with a 5mm gap between canvas and frame. Frames are available in a variety of finishes including raw oak, white, black, and many more.

Please download our FRAMING BROCHURE from our website for colour choices.

WALLPAPER/MURAL PRINTING

ADHESIVE PRINTABLE FABRIC

This is a versatile material that can be adhered to walls, ceilings and doors, with the ability to be repositioned over and over again.

It leaves no sticky residue when removed and is 100% non-toxic and biodegradable.

Excellent medium for Interior Designers.

MOUNTING

FOAM CORE - 5 m m / 1 0 m m / 2 0 m m

Wire Hangers Available \$5.00
Can use velcro as an alternative

MDF - 6 m m / 9 m m / 1 2 m m

Please refer to **'hanging systems'** pg for
prices on split batten for hanging
on you wall.

Can use velcro for hanging purposes

MOUNTING-ACRYLIC

Our Acrylic prints offer a supremely beautiful display option which complements a wide array of images from family to commercial and fine art. The image is printed on a metallic paper and placed behind a 6mm or 3mm sheet of acrylic. When light reflects through the acrylic onto the paper, a stunning effect is created making the colours pop and giving the impression of an almost 3D image. This sort of effect cannot be achieved with glass or other traditional frames. Prices below include print. Please allow 3-4 weeks for completion.

HOW TO WORK OUT MOUNTING PRICES

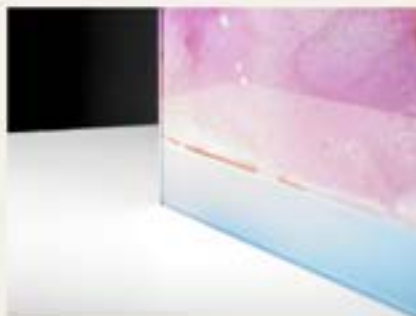

1. Measure the print in CMS
2. Add length and width to obtain united cm's total

3 m m

HANGLING SYSTEMS

There are two hanging systems to choose from; Split batten, and Aluminium Frame. You will require one of these systems on the MDF, Di bond, & Acrylic mediums.

SPLIT BATTEN :

One split batten attaches to the wall and the other to the medium and connects. Your image will sit 7mm from the wall.

ALUMINIUM FRAME :

The aluminium frame is fully attached to the back of your substrate. This attaches straight onto a nail/hook to the wall. This sits 10mm off the wall.

Length + Width (CMS)	Split batten	Alu frame

18mb +	\$11.00	\$9.35	\$7.90	\$7.15	\$6.30

ART REPRODUCTION

Our copy-work service supports artists whose large or small-scale work requires a digital output or print to produce limited edition reproductions. There are two different process to choose from. We can photograph your artwork professionally or hi-res scan your artwork on our professional scanner.

PHOTOGRAPHING YOUR ARTWORK

Before your work is photographed in our studio, a set-up is arranged specifically to light the art to maintain the colour and texture of your work. Large scale works are photographed with the use of a Hasselblad x1D – a mirrorless digital medium format camera. With the use of this magnificent camera all the details of your work will be retained digitally. Once an image of your work has been taken, we then work on colour and density matching. Our highly skilled and knowledgeable staff colour grade with particular attention to detail to reproduce the colours accurately to your original work. You'll end up with the digital file of your artwork and a printed sample of your artwork to keep as a reference.

SCANNING YOUR ARTWORK

We use our professional in-house scanner to produce hi res files ready for print. Along with your digital file you'll receive a printed sample of your artwork to keep as a reference. Any original artwork bigger than A3 will be professionally photographed.

PHOTOGRAPHY OF ARTWORK

1 artwork	\$195
2-10 artworks	\$165 each
11+ artworks	\$125 each

SCANNING OF ARTWORK

100mb	\$44.00	Ideal for up to A2 printing
200mb	\$66.00	Ideal for up to A1 printing
300mb	\$110.00	Ideal for up to A0 printing

SPONSORSHIP

Prism Imaging has been proudly supporting artists for over 30 years. We understand the importance of sustaining Melbourne's rich and diverse arts community and have a variety of sponsorship opportunities available, tailored to specific projects and exhibitions.

Discounts on our services can be offered in exchange for logo and branding, and social media coverage. Recent sponsorship projects have included: The Royal Melbourne Show Photography competition, Royal Children's Hospital, Melbourne's Disposable Camera Project, C C P Ilford Salon and many more independent exhibitions. We have a variety of services available to best sponsor your exhibition or project including fine art printing, mounting, framing, and scanning.

Please arrange an appointment to discuss opportunities for your next project.

FILE SETUP SPECS

The following information assists you in setting up your files so that what you see on your monitor is what you get back from Prism Imaging. Please call or email gary@prismimaging.com.au to obtain our out-put profiles for soft-proofing if required. Please use these profiles for soft proofing only, there is no need to embed them to your files.

The benefits of colour management:

- Calibration to international standards provides 100% certainty that you are viewing your images correctly and therefore any adjustments you make will be accurate. The only way to calibrate a monitor correctly is to use a hardware device that is compliant to ICC standards.
- Be confident that image files dispatched to the printer, lab and (most importantly) your clients are exactly as they should be.
- Eliminate guesswork and trial and error to gain optimal production efficiency.
- Accurately preview images prior to printing to minimise screen and print discrepancies in both RGB and CMYK

FILE SETUP

EPSON Sure lab D3000 / MINI LAB

- Please flatten all layers.
- Submit only TIFF or JPEG files.
- Standard 8 bit/channel (no 16bit files) RGB **NOT** CMYK.
- 250-300 dpi if possible.
